

Eastto Radiator Coolant

GRADE: CONCENTRATED

INTRODUCTION:

Eastto RADIATOR COOLANT is a premium quality synthetic radiator coolant which is free from amines, borates, silicates and phosphates. It is easily miscible with water and possesses excellent hard water stability. It has good chemical stability and protects non-metallic components of engine radiator, like gaskets and hoses. It exhibits high boiling point and low freezing point to take care of summer and winter.

APPLICATION:

EASTTO RADIATOR COOLANT is recommended for use in mobile and stationary automotive engines having closed loop coolant circulation systems and advised to use one part of the concentrated fluid with two parts of water (preferably Demineralised Water) in the engine radiator or as per the recommendation of OEM.

PERFORMANCE LEVEL: It meets the requirement of

JIS K - 2234 - 1934

IS: 5759 - 2006

TYPICAL PROPERTIES:

CHARACTERISTICS	EASTTO RADIATOR COOLANT
Colour	Bluish Green
Boiling Point, °C. Min.	155
Freezing Point of water solution, °C. 50 % solution	- 35
Freezing Point of water solution, °C. 30 % solution	- 15

PACKING: 210 Litres Drum
